# ChemPUR: We create Connections

Pure Metals and Fine Chemicals for research and development, synthesis and analytics – all from ChemPUR “Your One-Step Source to Success”.

In 1988, ChemPUR Feinchemikalien und Forschungsbedarf GmbH was founded as a subsidiary of W.C. Heraeus GmbH of Hanau, originally under the company name Heraeus Feinchemikalien und Forschungsbedarf GmbH – since 1996 ChemPUR exists as an independent GmbH (German limited company). Today we are among the most renowned providers of fine chemicals for research and development, supplying more than 4,000 metals, elements and inorganic fine chemicals.

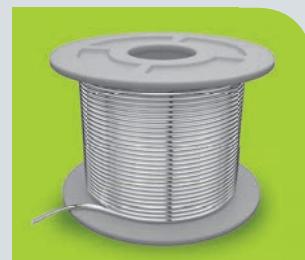

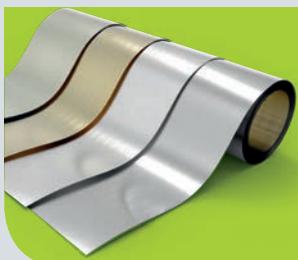

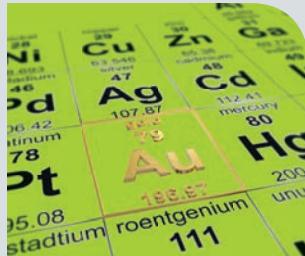

Our delivery program includes pure and high-purity metals in all available forms, evaporation materials, sputtering targets from metallic and non-metallic materials, inorganic speciality chemicals up to the highest level of purity, precious metal compounds, catalysts, rare earth compounds and Nanopowders as well as laboratory equipment and semi-finished products made from platinum and platinum alloys.

But it is not just our portfolio of unequalled depth and range that makes us to a unique partner: More than 30 years of experience combined with a vivid quality management certified to ISO 9001:2015, guarantees maximum performance and service to our customers.

Friendly expert advice, personal contact and flexibility of a mid-sized company are our strengths for your individual demands.

# Laborgeräte aus Platin und Platin-Legierungen

Hohe chemische Beständigkeit, thermische Stabilität und Korrosionsfestigkeit zeichnen unser praxisgerechtes Platin-Laborgeräte-Programm aus. Unverzichtbar für den Einsatz bei vielen chemisch-physikalischen Untersuchungen, sowie bei der Röntgenfluoreszenzanalyse (RFA).

Die am Häufigsten benötigten Schalen, Tiegel, Deckel, Tiegelzangen, Elektroden und Schiffchen sind standardisiert. Zur Vermeidung von mechanischen Deformationen liefern wir Tiegel und Schalen in unterschiedlichen Blechdicken und mit verstärktem Rand.

Alle Schalen sind mit und ohne Ausguss verfügbar. Sonderformen für verschiedene, zum Teil genormte Analysemethoden gehören ebenfalls zu unserem Lieferprogramm.

Kundenspezifische Sonderanfertigungen für besondere Anwendungen liefern wir gerne nach Ihren Vorgaben.

Unsere Gesamtübersicht an Laborgeräten aus Platin und Platinlegierungen mit Abmessungen und Gewichten finden Sie auf unserer Homepage unter [www.chempur.de](http://www.chempur.de)

Hinweise für die Handhabung und Pflege der Platin-Geräte senden wir Ihnen gerne zu.

# Laboratory Equipment made from Platinum and Platinum alloys

High chemical resistance, thermal stability and corrosion resistance are the characteristics of our practical platinum laboratory equipment range. This is essential for use in many chemical-physical experiments as well as for X-ray fluorescence analysis.

The most frequently required dishes, crucibles, covers, crucible tongs, electrodes and boats are standardized. To avoid mechanical deformations, we provide crucibles and dishes in various sheet thicknesses and with reinforced rims. All dishes are available with and without a pouring lip. Special forms for various, partially standardized analysis methods are also part of our product range.

We would be happy to provide customer-specific custom-made products for special applications in accordance with your specifications.

You can find a complete overview of our laboratory equipment made from platinum and platinum alloys with dimensions and weights online under [www.chempur.de](http://www.chempur.de)

We would be pleased to send you instructions for the handling and maintenance of the platinum equipments.
